TREATISE BILLS OF EXCHANGE

PROMISSORY NOTES. ISAAC EDWARDS, Counselor-at Law, Just published, and for sale by

BANKS, GOULD & Co.,

No. 144 Nassau-st , New-York, and No. 475 Broadway, Albany. and No. 475 Broadway, Albany.

A TREATISE ON EILLS OF EXCHANGE AND PROMISSORY
NOTES. By Issac Edwards, Counselor-at-Law. Banks, Goold &
Co. The materials of this work being based on the decisions of our own courts, does not come into competition with any English work on the subject; nor can it be decomed a rival of anything which has yet appeared in this country. The object has been to ascertain the taw and state it to brief terms with seeds illustrations as seemed calculated to develop and explain the reason on which it is founded. Estimating the lorgistration of the subject with reference to the amount of property affect in the shape of bills and notes, there never has been a time when it called for greater socuracy and discrimination than now or invited the attention of merchants and professional men with equal suggreet. "I N. Journal of Commorce, Oct 21 1837.

"A TREATISE ON BILLS OF EXCHANGE AND PROMISSORY NOTES. By Issue Edwards, Counselor-at-Law. New Yora: Banks Goul'à Co. As the latest decision is deemed the highest authority in legal matters, the latest treatise or digest of cases on any branch of the law must be of the greetest value to practitioners, provided, of course, that is be faithfully complied ant judiciousy stranged. These requirement's being met by the volume before us we may justly recommend Mr. Edward's treature to the gentlemen of the box. It is preeminent y an American law book, incorporating the substance of nearly two thussed American lew book, incorporating the substance of law regarding nearly the substance of hearing the properties of the Eu-

American law book, incorporating the substance of nearly two users American desir one with the principles of law regarding preactable paper established by the adjudications of the English Courts and estim for this notes the states of the State in which the commercial law is not adopted. By way of appendix, a translation is given of that part of the Commercial Code of France relating to bills of exchange and promissory notes. The index is very minute and enables the realer to find in a moment what the law is on any point of the subject. The work is primarily adapted to the use of lawyers, but it will be scarcely less useful to merchank and bankers."

"A TREATISE ON BILLS OF EXCHANGE AND PROMISSORY NOTES. By lasso Edwards for pp. 73. Banks, Goald & Co. The public is already in possessis not several treatises on this subject, by Balley, Chitty, Story and others; but as new decisions are constantly made there is room for essential improvements on the treatises already published. One pseuliarity of Mr. Edwards's book seems to be giving greater prominence than former restizes to the decisions of American Courts which on this subject already outnumber those of the English reports, and having reference to many points not touched upon in the English profit.

and having reference to many points not touched up in the Eng lab books.

"Nor is it merely to the law as exhibited in the adjudged cases that Mr. Edward confines himself. With a view to give his book a greater practical utility, he has embodied in it the statute provisions of the various States, which from the difficulty of getting access to a complete series of the statutes at the States will prove a great convenience. Not only is a collection of State statutes not to be scoked for in any private library, there are only two or three public libraries in this country which contain anything at a floomplete. Our New-York Law Library is wretchedly deficient on this score.

"The bulk to which the law on the subject of negotiable paper has expanded itself to apparent from the size of this work, which without any undue prolitity, extends itself to nearly eight hundred pages. The last chapter gives that title of the commercial code of France which relates to exchange and promissory notes."
